SUMMARY

Results-driven Frontend Engineer with hands-on experience in React.js, JavaScript (ES6+), HTML5, CSS3, and responsive web development. Proven ability to deliver scalable, production-ready web applications through CI/CD pipelines and AI-assisted workflows. Complementary background in technical documentation, API compliance, and cross-functional collaboration — enabling effective communication across engineering, QA, and product teams.

TECHNICAL SKILLS

Frontend: React.js, Redux / Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, Web Performance Optimization

AI-Assisted Dev: GitHub Copilot, ChatGPT, Prompt Engineering, Cursor

Backend & Tools: Node.js, Express.js, Python, MongoDB, Git & GitHub, REST API Integration, CI/CD (GitHub Actions, Netlify), Webpack, Vite

Testing: Jest, Chrome DevTools, Manual Testing, UI Testing, Regression Testing, Cross-Browser Testing, Jira

Embedded & IoT: Robotics, IoT Protocols, PLC Programming

PROFESSIONAL EXPERIENCE

Frontend Engineer | Self-Employed

Aug 2024 – Present

- Engineered 5+ responsive web applications using React.js, Redux Toolkit, Tailwind CSS, and RESTful APIs, improving page load speeds by 20%.
- Architected and deployed scalable React.js applications using Vite and Webpack, configuring CI/CD pipelines via GitHub Actions to accelerate deployment cycles by 30%.
- Utilized AI-assisted development tools including GitHub Copilot and ChatGPT to streamline React.js workflows, reducing development cycle times by 25%.
- Conducted automated and manual regression testing across cross-browser environments using Jest and Chrome DevTools to validate frontend UI quality before production release.

Technical Compliance Engineer | Smart Outsource Solutions, Rawalpindi

Jan 2024 – Present

- Analyzed 50+ technical specifications and system schemas, validating JSON/XML data structures to ensure compliance with API integration standards.
- Authored and maintained 50+ compliance records and technical reports, improving document traceability by 40% and ensuring 100% audit readiness.
- Identified and resolved documentation discrepancies before final review, applying structured QA processes to reduce processing delays and improve release accuracy.
- Collaborated with cross-functional engineering and product teams using Agile methodologies to resolve technical documentation queries, accelerating project delivery.

Quality Assurance Tester | Test.io, Remote

Jan 2023 – May 2023

- Executed manual, UI, and regression testing protocols across 10+ web applications, utilizing Chrome DevTools to debug frontend issues and ensure cross-browser compatibility.
- Documented and tracked 100+ software defects in Jira, providing detailed reproduction steps and technical logs to accelerate engineering debugging cycles.
- Verified build integrity across staging and production environments, supporting CI/CD release validation to ensure zero-defect deployments.

PROJECTS

E-Commerce Platform

- Developed a responsive E-Commerce application using ES6+ JavaScript, Semantic HTML5, and CSS3; integrated Local Storage for state management and optimized Core Web Vitals to reduce Largest Contentful Paint (LCP) by 15%.

Mehran Enterprises – Client Website

- Designed and developed a fully responsive business website for Mehran Enterprises using React.js, HTML5, and CSS3, delivering a production-ready client project with clean UI and cross-browser compatibility.

Education Portal (LMS)

- Architected a responsive Role-Based LMS using React.js and React Router, implementing JWT-based client-side authentication and dynamic dashboards, reducing page transition latency by 25%.

EDUCATION

Bachelor of Engineering in Electronics | NED University of Engineering & Technology
Karachi, Pakistan

Sep 2019 – Jun 2023

CERTIFICATIONS

-
- Certified MERN Stack Developer – Skills Education Academy (2023)
 - AI-Powered Full Stack Development – Talha’s School

ACHIEVEMENTS

-
- Presented Final Year Project at the 2nd International Conference on Emerging Trends in Electronics and Telecommunication Engineering, NED University.
 - Human Resources Volunteer – Free Quran Education, supporting community outreach and educational initiatives.
